PIERSON KILLED

Ohio Coroner Determines Fate of College Student, But Not Guilty Parties.

(By Associated Ness.)

MOUNT VERNON, OHIO, November 11.
Coroner Scarborough rendered his verdict in the Pierson case to-day. He finds that the testimony established that Pierson had been bound or tied at the wrists and at the ankles, and that he was tied fast to the railroad track or railroad ties, and while so tied was run over by an engine, and in that mainer met his death.

The coroner also states in his verdict that under the peculiar vircumstances it is impossible for him to determine who the guilty parties were that tied the young mas.

guilty parties were that thed the young man.

Pierson wan a student of Kenyon College and was being initiated into the Delia Kappa Epsilon fraternity on the night of his death.

Some of the initiators allege that he had been ordered to so out and stand on the railroad track at a bridge until sent for. There were suspicious circumstances about the story, however, and the coroner and proceeding attorney started an investigation. They declared that they discovered evidence that the had had been chloroformed and tied to the track, although all the relies of the tragedy had been carefully removed. It was admitted, however, that candidates for some of the fraternities were at times bound to the tracks to await initiation.

Pierson, son of a wealthy Cincinnat lumber dealer, was killed by a special train that passed before the regular train. It is believed by the authorties that the persons who bound the lad to the track did not figure on this train, and that it was a fatal oversight.

No arrests have as yet been ordered, see far as can be learned.

Tired Nervous

When you feel languid, tired, nervous and irritable, your vitality is low—your supply of nerve energy exhausted, and your system running down for lack of power,

The organs of the body are working poorly, or not at all, and you are not getting the nourishment needed. This soon impoverishes the blood and instead of throwing off the im-purities, distributes it all through the body. This brings disease and misery.

Feed the nerves with Dr. Miles' Nervine, a nerve food, a nerve medicine, that nourishes and strengthens the nerves, and see how quickly you will get strong and vigorous.

strong and vigorous.

"My wife suffered with nervousness previous to a recent attack of typhoid fever, but after her recovery from the fover, she was much worse, and could hardly control herself being exceedingly nervous when the least excited. She was very resiless at night, and never had a good night's rest. She also suffered much from nervous head-ache. Dr. Miles' Nervine was recommended by a friend. After the first three doses she had a good night's rest, and at the end of the first week's treatment she was wonderfully improved. Continued use of Nervine has completed her entire cure."
